

# Project Management Professional (PMP®)

## TRAINING DATASHEET

Learn the skills and techniques to study and prepare for the PMP certification examination. Updated for July 2026 PMP exam, our course explains the core concepts of PMP and the considerations for AI and sustainability.

## COURSE SYNOPSIS

The Project Management Professional (PMP)® credential, awarded by the Project Management Institute (PMI), USA, is one of the most prestigious and widely recognized certifications for project managers. Globally valued and in high demand, the PMP demonstrates that you possess the experience, education, and competency to successfully lead and deliver projects.

This PMP Examination Preparation course is designed to help you master the core principles of project management and equip you with the knowledge and skills needed to succeed in the rigorous PMP examination. Our training is based on PMI-authorized course materials, aligned with the latest July 2026 PMP exam content.

PMP July 2026 has been re-designed to incorporate new topics such as artificial intelligence (AI), sustainability, and stakeholder engagement, with a stronger focus on delivering outcomes and value. The three domains—People, Process, and Business Environment—have been updated to place greater emphasis on business management and leadership, extending beyond traditional team management. The revised PMP also continues to align with the PMI Talent Triangle, emphasizing key skill areas: Ways of Working, Power Skills, and Business Acumen.

In addition, PMP July 2026 will maintain coverage of predictive, agile, and hybrid project approaches, while placing increased emphasis on adaptive practices and real-world project dynamics.

The PMI® Authorized Training Partner seal is a mark of the Project Management Institute, Inc.

## COURSE DURATION

5 Days

## COURSE OBJECTIVES

On completion of this course, participants would have been exposed to our proven approach of preparation for the PMP examination via:

- ▲ Exam-focused training based on PMI-standardized course materials
- ▲ Exam preparation methods
- ▲ Advice to participants on the application for the PMP certification exam.

## WHO SHOULD ATTEND

The PMP certification validates proven expertise in leading and directing project teams. For experienced project managers aiming to strengthen their capabilities, differentiate themselves in a competitive market, and enhance their earning potential, the PMP credential is an ideal choice.

## PRE-REQUISITES

There are no formal prerequisites for attending this course. However, participants are encouraged to meet PMI's requirements for leading project experience, aligned with their educational background. Prior knowledge of predictive and agile methodologies is also beneficial and will provide a helpful head start.

## OUTLINE

- ▲ 2026 PMP Exam Overview
- ▲ The big picture: domains, life cycle, and governance
- ▲ Stakeholders, vision, and communication
- ▲ Team, conflict, and knowledge
- ▲ Core planning: scope, value, resources, finance, and risk
- ▲ Integrated planning: method, plan, schedule, quality, and procurement
- ▲ Execution, monitoring, change, and impediments
- ▲ Getting ready for the test.

## CERTIFICATION PROCESS

For participants intending to sit for the PMP exam, this course provides the 35 contact hours of project management training required by PMI.

Participants must submit their PMP exam application through their PMI account. Our facilitators will offer comprehensive guidance of this process during the course.
