

PRINCE2® 7

Foundation and Practitioner

Based on PRINCE2® 7th edition

TRAINING DATASHEET

Learn the skills and techniques to study and prepare for the PRINCE2 7 Foundation and Practitioner certification examinations. Updated based on the latest PRINCE2 7th edition, our course explains the method's structured, scalable and tailorable approach to project management, with the five integrated elements of PRINCE2.

COURSE SYNOPSIS

PRINCE2® (PROJECTS IN CONTROLLED ENVIRONMENTS) is a globally recognized and established project management method that offers a structured, scalable, and tailorable approach to project management. Its focus on governance, risk management, and benefits realization sets it apart from other qualifications. By integrating agile concepts and emphasizing tailoring, PRINCE2 7 is even more adaptable to diverse project environments.

PRINCE2 7 addresses changes in the project management sector and adapts to evolving working practices and technologies. It places a central focus on people management, embraces digital and data management and integrates sustainability into project performance. PRINCE2 7 is compatible with Agile, Lean and ITIL®.

The PRINCE2 7 Foundation and Practitioner course is a 5-day combined training offering. This course provides a platform and forum for the practice and internalization of the concepts and methods within the syllabus plus an exam-focused guidance to enable delegates to confidently approach the PRINCE2 Foundation and Practitioner examinations. At the end of this course, you will have sufficient understanding to apply and tailor the method in different project environments.

Participants are eligible to claim 35 PMI PDUs upon attending this course.

COURSE DURATION
