CERTIFIED IN RISK AND INFORMATION SYSTEMS CONTROL (CRISC) PREPARATION COURSE

A ISACA CORE4 CERTIFICATION

TRAINING DATASHEET

In today's business environment, enterprises need to innovate in order to survive and flourish. Innovation, however, almost always involves risk. To maintain or attain their competitiveness, future-thinking enterprise leaders are increasingly recognizing the need for professionals who understand technology, and specifically how to implement and align effective risk management and control frameworks with their enterprise's business goals.

To help meet the rising demand for professionals with this critical blend of technical and business understanding, ISACA® brought together its industry experts from around the globe to develop what is fast becoming the gold standard designation for risk management—the Certified in Risk and Information Systems Control™ (CRISC™) certification.

COURSE SYNOPSIS

The CRISC Exam Preparation course is an intensive, five-day review program to prepare individuals who are planning to sit for the Certified in Risk and Information System Controls™ (CRISC) exam.

The course focuses on the key points covered in the latest edition of the CRISC Review Manual and includes class lectures, group discussions, exam practice and answer debriefs. The course is intended for individuals with familiarity with and experience in IT and enterprise risk management.

CRISC Certified in Risk and Information Systems Control™ An ISACA® Certification

sapience

DURATION

5 Days Instructor Led Classroom Training

COURSE OBJECTIVES

Participants in the CRISC Exam Preparation course will be provided instruction designed to provide the following:

- An understanding of the format and structure of the CRISC certification exam.
- A knowledge of the various topics and technical areas covered by the exam.
- Practice with specific strategies, tips and techniques for taking and passing the exam
- Opportunities to execute practice questions with debriefs of answers

WHO SHOULD ATTEND

Individuals who are looking to build a greater understanding of the impact of IT Risk and how it relates to their organization.

OUTLINE

The CRISC Exam Preparation Course comprises seven primary sections, covering the following topics:

- General Examination Information
- The Context of IT Risk Management
- Domain 1 –Governance
- Domain 2 –IT Risk Assessment
- Domain 3 –Risk Response and Reporting
- Domain 4 –Information Technology and Security
