

CERTIFIED INFORMATION SECURITY MANAGER (CISM) PREPARATION COURSE

A ISACA CORE4 CERTIFICATION

TRAINING DATASHEET

In a world where enterprise success is increasingly dependent on information systems and information technology, the trust customers, clients, employees and other stakeholders have for an enterprise can quickly dissipate in the face of a data security breach. As the growing number of high-profile breaches demonstrates, information security failures can result in significant damage to an enterprise's bottom line as well as its reputation.

To ensure greater alignment between organizations' information security programs and their broader goals and objectives, more and more enterprises and government agencies expect, and even require, their information security professionals to hold the Certified Information Security Manager® (CISM®) certification.

COURSE SYNOPSIS

The CISM Exam Preparation course is an intensive, four-day review program to prepare individuals who are planning to sit for the Certified Information Security Manager (CISM) exam.

The course focuses on the key points covered in the CISM Review Manual 15th Edition and includes class lectures, group discussions/activities, exam practice and answer debriefs. The course is intended for individuals with familiarity with and experience in information security management.

DURATION

4 Days Instructor Led Classroom Training

COURSE OBJECTIVES

Participants in the CISM Exam Preparation course will be provided instruction designed to provide the following:

- ▲ An understanding of the format and structure of the CISM certification exam.
- ▲ A knowledge of the various topics and technical areas covered by the exam.
- ▲ Practice with specific strategies, tips and techniques for taking and passing the exam
- ▲ Opportunities to execute practice questions with debriefs of answers

WHO SHOULD ATTEND

Individuals who manage, design, oversee and assess an enterprises' information security.

OUTLINE

The CISM Exam Preparation Course comprises six primary sections, covering the following topics:

- ▲ General Examination Information
- ▲ Information Security Governance
- ▲ Information risk management
- ▲ Information security program development and management
- ▲ Information security incident management
- ▲ Exam practice/sample exam

Typically, each day of the course will cover a single CISM domain, using lecture, group activities and practice questions.

CERTIFICATION

Delegates who successfully completed the course and pass the exam will be allowed to apply for formal CISM accreditation from ISACA

IBF FUNDING SUPPORT

This programme has been accredited under the IBF Standards, and is eligible for funding under the IBF Standards Training Scheme (IBF-STTS), subject to all eligibility criteria being met. Participants are advised to assess the suitability of the programme and its relevance to participants' business activities or job roles.
